THANK YOU!

Deployment package on way to you via Mike Torres.

You will have both addresses (ICP and Public Meeting location)

Ronnie is the RIC and OSC Mark Hayes is the IC. Mark will be demobing and OSC Roberto Bernier will be the next IC.

THANK YOU! susan

Susan Webster, Chief

Removal Section

Superfund Division

US EPA Region 6

Well I am on my way I will arrive in Durango at 3:30. I would appreciate directions to the Unified Command Post so I can touch base with you, Ronnie, and the Environmental Unit so I will be sure to be us to speed on the group talking points and any changes that have occurred today.

While we are at it I could use directions to the public meeting in Farmington NM, whoo the OSC is and any specific direction or talking points of which Region 6 would like me to be aware. I have the Region 8 chemistry presentation and we are presently QA ing the charts. I thought that we could add the Region 6 numbers to the graphs and have a consistent presentation with Region 8 and await your data. SERAS (SRC) is doing the Region 8 graphs and presentations out of Denver.

My expectation is that I will be out Monday afternoon.

Remember the Pirate 213 Arrrrgh Arrrrgh
